

## Autism Spectrum Conditions

### Worcestershire Acute Trust Questionnaire

Please complete the following, to provide us with information about current awareness and adjustments around Autism Spectrum Conditions within your service and to provide feedback about additional information and resources you would find useful.

We will use the information gathered to make recommendations about how information and resources for health services in Worcestershire can be developed and improved. We will also share current good practice about how services are currently supporting patients with Autism Spectrum Conditions in Worcestershire.

<b>Completed by (Name / Position)</b>	
<b>Directorate</b>	
<b>Specialities covered</b>	
<b>Date completed</b>	

**1. What information, training or resources have staff used to access information about Autism Spectrum Conditions and how to support people with ASC? E.g. Specific websites.**

**What have they found useful and why?**

--

**2. Can you give any examples of how your service has made reasonable adjustments for patients with Autism Spectrum Conditions? E.g. a quiet place to wait, visual information.**

**3. What additional information, training and resources would be helpful for staff to increase their understanding of Autism Spectrum Conditions and help them to support patients with ASC?**

**Any further comments:**

Many thanks for providing your feedback.
