

## Autism Spectrum Conditions Questionnaire Information

Easy Read

Healthwatch Worcestershire finds out what people think about health and care services.

We tell the people who run the services how they can make them better.

We want to know what people with Autism Spectrum Conditions and their carers think about health services, information and support.

We want to know –

- What people can find difficult when they go to the Doctor or Hospital
- What could help to make it easier
- What information and support has been helpful
- What other information and support people would like

We will use this information to tell the people who run the services how they can make things better for people with an Autism Spectrum Condition.

We do not need your name.

People will not know who has told us what when we write the report.

Please post us your completed questionnaire.

Either –

In the envelope we have given you.
