

Autism Spectrum Conditions

West Midlands Ambulance Service Questionnaire

Please complete the following, to provide us with information about current awareness and adjustments around Autism Spectrum Conditions within your Service Delivery Unit and to provide feedback about additional information and resources you would find useful.

We will use the information gathered to make recommendations about how information and resources for health services in Worcestershire can be developed and improved.

We will also share current good practice about how services are currently supporting patients with Autism Spectrum Conditions in Worcestershire.

1. Are there any training or awareness sessions available to staff within WMAS about Autism Spectrum Conditions and how to support people with ASC?

If yes -

- Who has provided the training?
- What format was this - e.g. group training sessions, online etc.
- How many staff have attended?
- Have they found this useful and how?

2. Is there any requirement for staff to complete any training about Autism Spectrum Conditions as part of their Continuing Professional Development?

3. What other information and / or resources have staff used to access information about Autism Spectrum Conditions and how to support people with ASC? E.g. Specific websites. What have they found useful and why?

4. Can you give any examples of how your service has made reasonable adjustments for patients with Autism Spectrum Conditions? E.g. visual information, flag on system for Autism.

5. What additional information, training and resources would be helpful for staff to increase their understanding of Autism Spectrum Conditions and help them to support patients with ASC?

Any further comments:

Many thanks for providing your feedback.
